KNIGHT
HACKS

What is Knight Hacks?

- UCF’s software development and hackathon RSO
- Host of weekly workshops on tech skills
- Organization behind UCF’s largest hackathon
- Beginner friendly

Our Mission

The goal of Knight Hacks is to develop computer science skills among students and to build an appreciation for real-world uses of the field. Knight Hacks aims to create a diverse, welcoming, and inclusive tech community, and to build friendship among students interested in technology.

Let’s get to know each other!

What topic, skill, or tool are you most excited to learn this semester?

What can you do in Knight Hacks?

Workshops

- Held weekly at 7:30PM on Thursdays
- All Fall 2020 events will be virtual
- Beginner-friendly

September 10th - Get Going with Git

September 17th

Fun with Markov Chains

Have you ever wanted to write like Shakespeare, predict the weather, or have a bot make news headlines? Well you can do all 3 with Markov Chains! This workshop is an intro to Markov chain applications and Python. Then we'll make our own bot!

September 24th

The Internship Panel

This top-rated event is back! Learn about intern experiences at various companies, ask questions about applying, and demystify the internship process.

Hackathon

What is a hackathon?

- 36-hour invention marathon
- Team up with three friends to build a project
- Prizes, games, workshops, tech talks
- Career fair with recruiters from top companies
- 100% FREE

Knight Hacks 2020 will be held virtually **October 9th - 11th**

Go to www.knighthacks.org and click register!

New Programs

Resumes

Our new centralized resume database! Sponsors and company workshop presenters will be given a copy of the resumes in the database lieu of people handing them in directly.

To submit your resume go to **www.knighthacks.org/resume**

Mentorship

Matching up pairs of newer students with more experienced students. For mentees: Attend mentorship events, get advice, and grow in your career! For mentors: develop an important skill and make a difference in someone's UCF experience and career!

Projects

Join a group of students to work on a semester-long project in your area of interest. Join our "code for good" initiative to build a project for a local non-profit organization. Group placements are intended to create a mix of experience levels, years, and skills.

How do I become a member?

Dues

What is the cost?

Dues are **$10 for the entire 2020-2021 school year**. Payable via credit/debit card and Cash App.

What does it get you?

The official 2020 Knight Hacks tee-shirt! The right to vote and run in elections. And the satisfaction that you're helping Knight Hacks!

Why pay dues?

We use the funds to make your Knight Hacks experience excellent! Dues, along with sponsorship, fund the hackathon, workshops, and all other Knight Hacks programs.

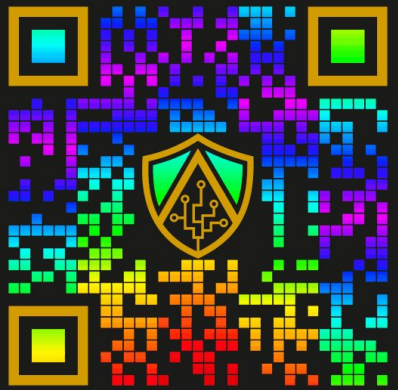
Questions?

HACK UCF

Hack@UCF is a cybersecurity club for the development and betterment of all things cyber.
Weekly meetings every Friday at 5:30 PM

- CTF's
- Weekend Workshops
- Blue Team and Red Team topics covered
- All majors welcome



hackucf.org | hackucf.org/discord

HACK

AI@UCF

Website: https://ucfai.org
Discord: https://ucfai.org/discord
GitHub: https://ucfai.org/github

AI@UCF deals with all things **Artificial Intelligence** and **Data Science**!
Interdisciplinary in nature, our club offers a wide variety of opportunities including:

- **GBM (General Body Meetings)** - General meetings and discussions around Artificial Intelligence (**Tuesdays at 6pm, bi-weekly**)
- **Discussions** - Research-oriented, paper reading group that dissects topics based on student interest (**Tuesdays at 6pm, bi-weekly**)
- **Projects** - Industry-focused and student-centered, teaching skills through project groups as well as workshops (**Thursdays at 6pm, bi-weekly**)
- **Core** - Lecture/workshop-based learning, performing an exploratory, “under the hood” search of the field

ACM & ACM-W
